ランプ（Lamp）

風雨を防御する“灯火”。石油ランプ全般を言うことが多いが、ガソリンランプ、ガスランプ、電灯なども含まれる。

シュラフザック（Schlafsack）

キャンピングや雪の中での露営などに使う寝袋。本来、羽根ぶとんや真綿ぶとんで封筒状の袋形にし、中に身体を入れ、頭部を外に出すもの。表面はナイロンかブロードなどの防水布で、二重の隔間に羽毛が入っている。しかし、最近は化学繊維製のものになり、軽量化されている。

水中メガネ（すいちゅうめがね）

水中に潜ったり、水中を観察したり、魚などを捕ったりするときに使う眼鏡のことをいう。通常、眼鏡というものは遠視・近視・乱視・老眼などの不完全な視力を凹または凸レンズで調整、目にかける器具だが、水中メガネのような特別の使い方として、太陽の紫外線を避けるサングラスなどもある。

SURVIVAL

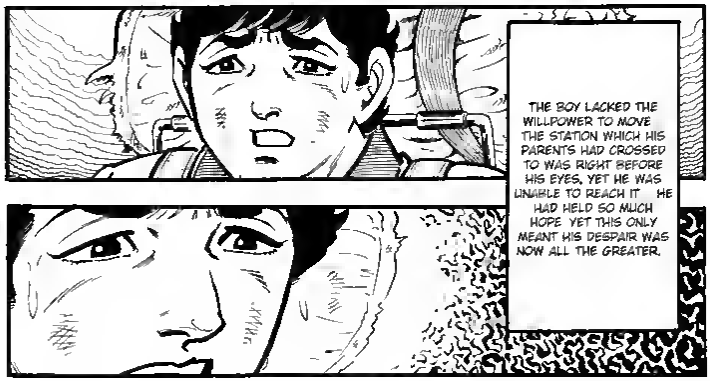
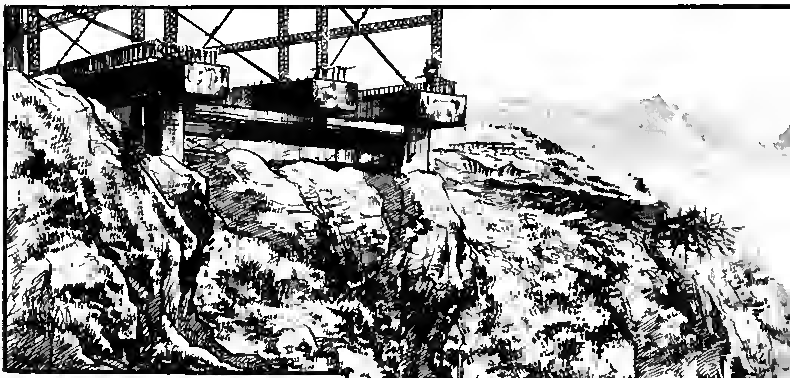
Danger 1

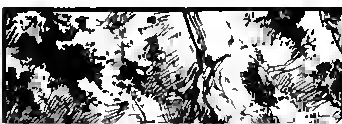


THE BOY LACKED THE WILLPOWER TO MOVE THE STATION WHICH HIS PARENTS HAD CROSSED TO WAS RIGHT BEFORE HIS EYES, YET HE WAS UNABLE TO REACH IT. HE HAD HELD SO MUCH HOPE YET THIS ONLY MEANT HIS DESPAIR WAS NOW ALL THE GREATER.

I'D NEED A ROPE WHICH WENT ALL THE WAY DOWN. BUT THERE'S JUST NO WAY IT'S DOABLE...
IT'D BE POINTLESS TRYING TO GO DOWN THE CLIFF...



EVEN IF I WERE TO MAKE IT DOWN... IT'D STILL BE A MAJOR ISSUE CLIMBING UP THE OTHER SIDE... WHO KNOWS JUST HOW MANY DAYS IT'D COST ME...



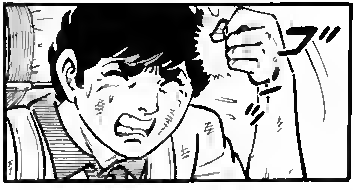
AND WHILE I DID ALL THAT MY FAMILY WOULD END UP FURTHER AWAY FROM ME...
THOUGH WHO KNOWS HOW FAR AWAY THEY'LL GET WHILE I'M JUST SAT LIKE THIS!

クァ

THERE HAS TO BE SOME WAY I CAN CROSS...!
D... DAMN IT!

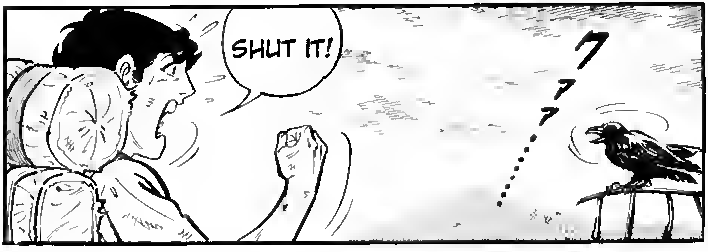
A BIRD... EH...
IF ONLY HE WERE TO BECOME A BIRD... IF ONLY HE WERE HE TO HAVE WINGS THAT WAS THE FIRST THING WHICH CAME TO THE BOY'S MIND... LIKE LILIENTHAL'S OBSERVATIONS OF HOW STORKS FLEW...

OTTO LILIENTHAL WAS AMONGST THE FIRST TO TRY OUT ONE OF HUMANITY'S LONG TERM DREAMS. IN 1889 HE WROTE "BIRDFLIGHT AS THE BASIS OF AVIATION" HE ATTEMPTED TO FLY WITH FEATHER COVERED APPARATUS, THOUGH TRAGICALLY FELL TO HIS DEATH IN 1896

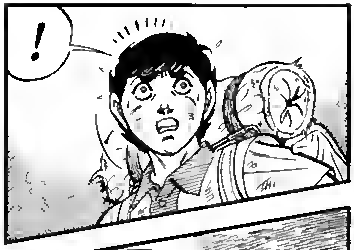


ブ

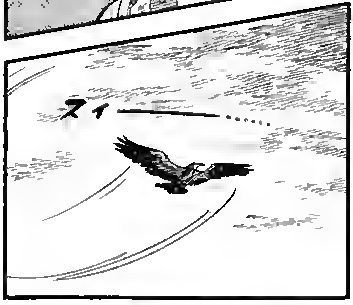
カァァ!!



SHUT IT!
クァァ……



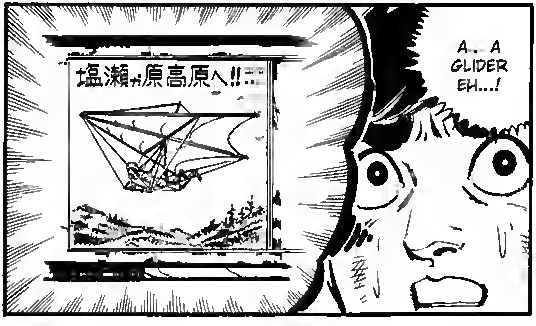
!



スィー……

バサ
バサ

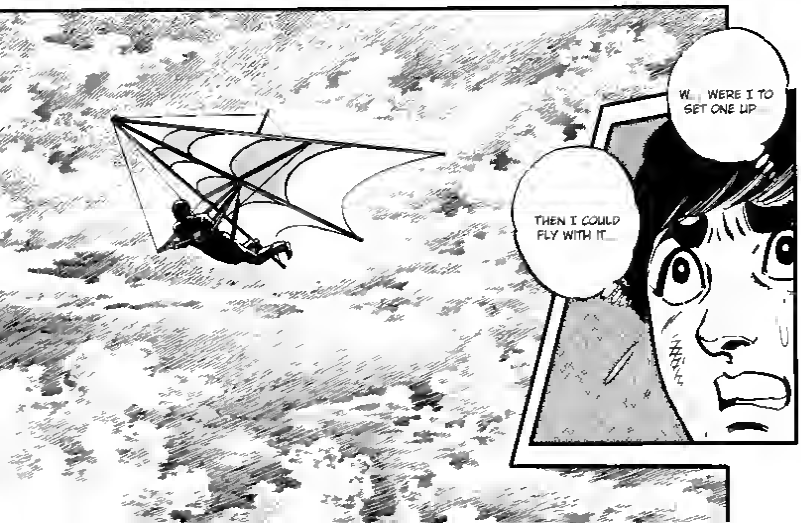
DAMN IT, IT'S FINE FOR THE BIRDS...
THEY CAN JUST GLIDE ALONG...



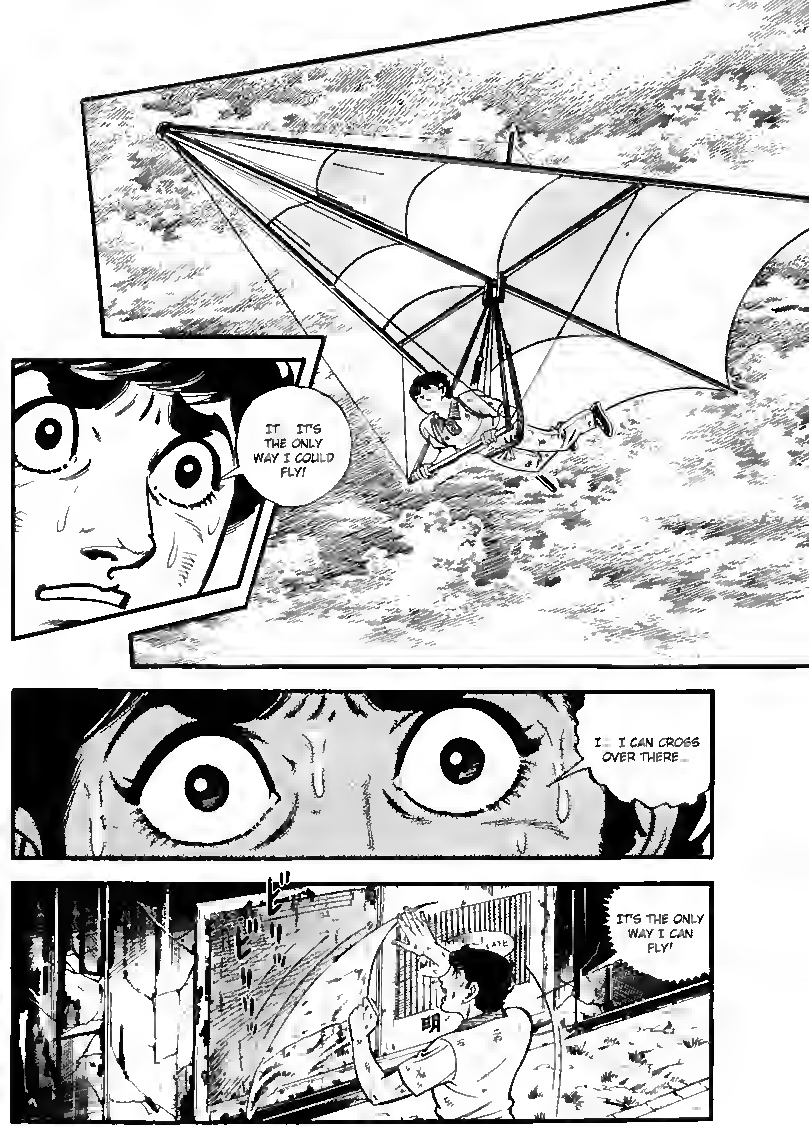
塩瀬ヶ原高原へ!!
A.. A GLIDER EH...!

!

A HANG GLIDER!



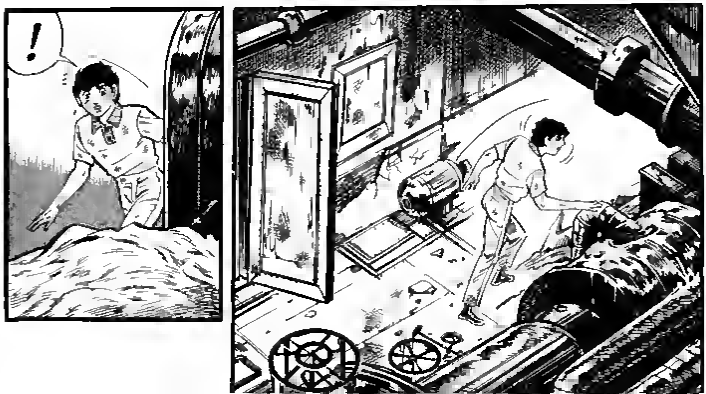
W... WERE I TO SET ONE UP...
THEN I COULD FLY WITH IT...



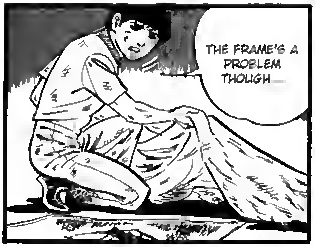
IT... IT'S THE ONLY WAY I COULD FLY!
I... I CAN CROSS OVER THERE...
IT'S THE ONLY WAY I CAN FLY!

塩瀬ガ原高原へ!!

NOW. THE FIRST ISSUES IS THE MATERIALS !

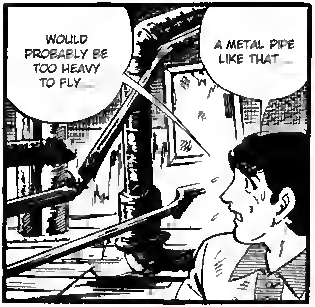


!



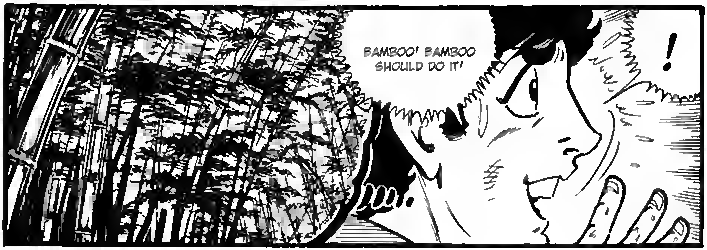
THE FRAME'S A PROBLEM THOUGH...

THIS WAS COVERING THE MACHINERY...
WERE I TO TAKE THE GOOD SPOTS, I COULD MAKE THE WING!



A METAL PIPE LIKE THAT...
WOULD PROBABLY BE TOO HEAVY TO FLY...

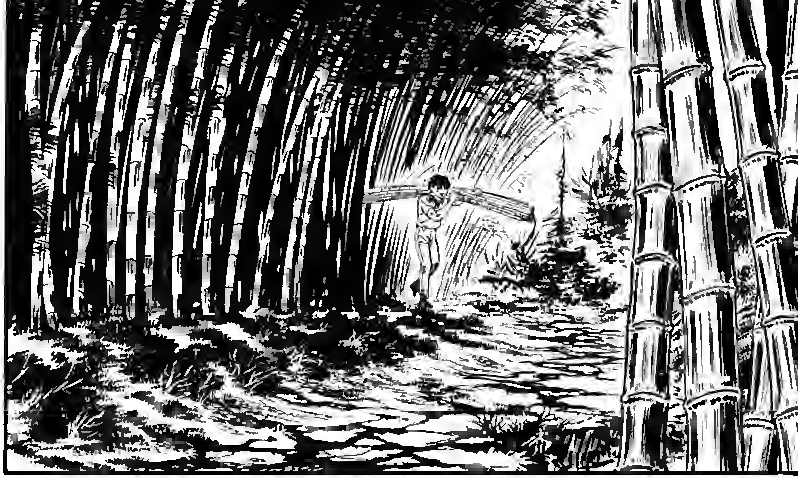
HMM...
SAYING THAT... ISN'T THERE ANYTHING ELSE I COULD USE FOR THE FRAME



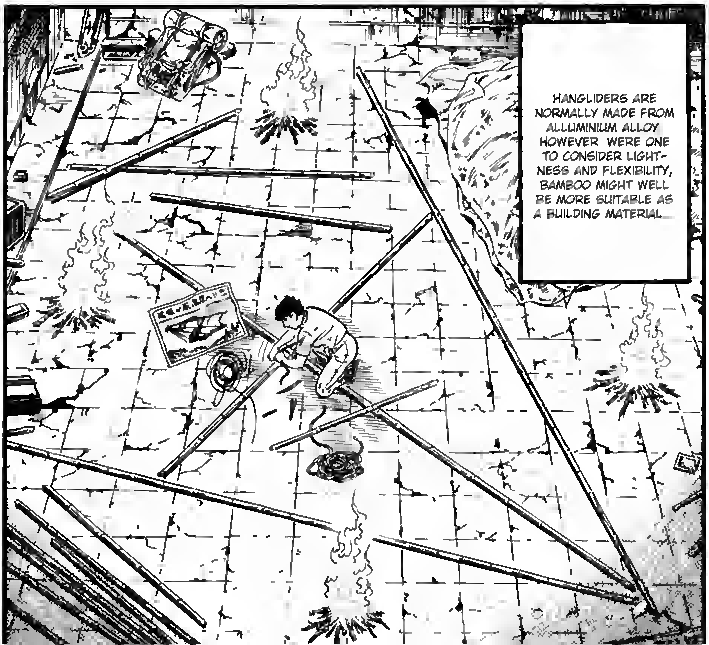
BAMBOO! BAMBOO SHOULD DO IT!
!
!!!

WAS THE BAMBOO THICKET IN WHICH THE BOY HAD TAKEN SHELTER FROM THE EARTH-QUAKE PRIOR TO ARRIVING AT THE STATION

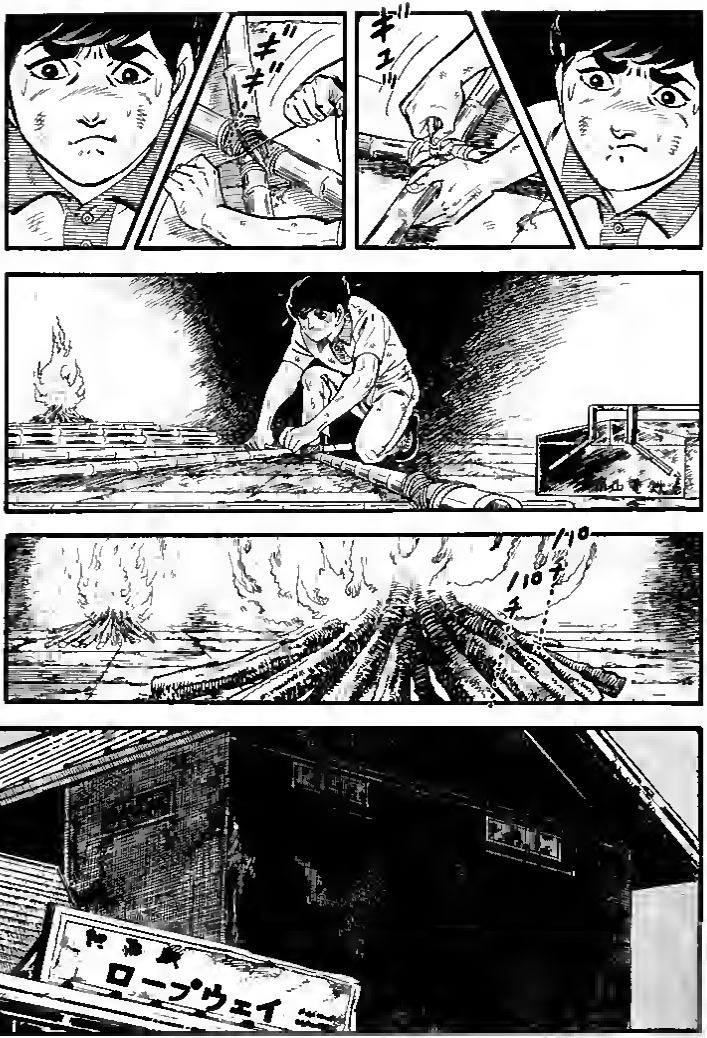
THIS SHOULD BE ENOUGH



ALRIGHT, THIS SHOULD DO!
TAKE A GOOD LOOK!
BEFORE LONG I'LL BE FLYING LIKE YOU!
I SHOULD HURRY UP.
STILL, IT'S GOTTEN AWFULLY LATE



HANGLIDERS ARE NORMALLY MADE FROM ALLUMINIUM ALLOY HOWEVER WERE ONE TO CONSIDER LIGHTNESS AND FLEXIBILITY, BAMBOO MIGHT WELL BE MORE SUITABLE AS A BUILDING MATERIAL...



ギギ…
ギギ…

カァー
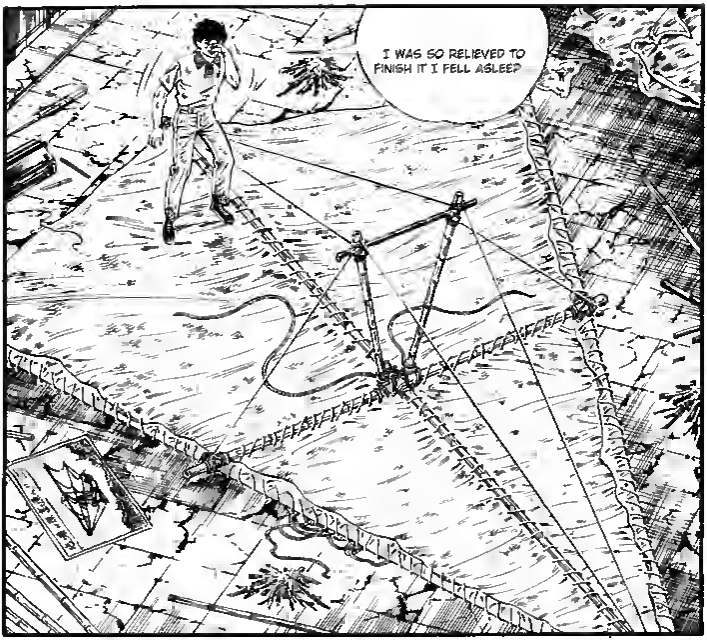
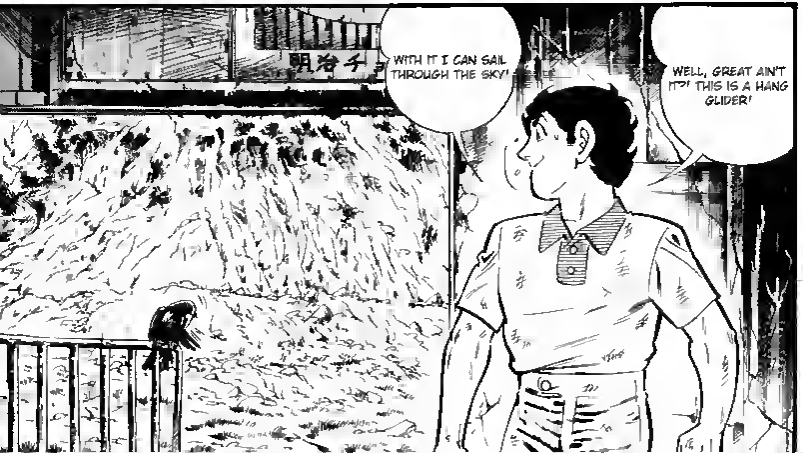
wwww



I WAS SO RELIEVED TO FINISH IT I FELL ASLEEP

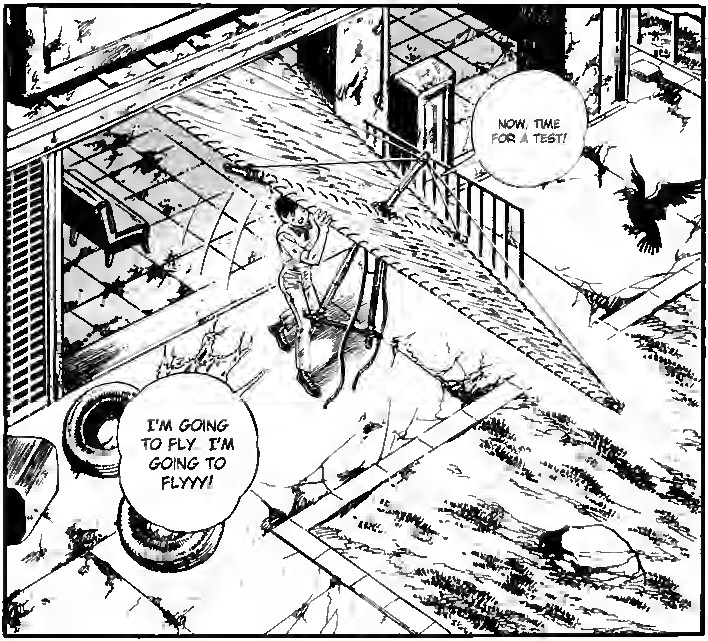


明治イ
WITH IT I CAN SAIL THROUGH THE SKY!
WELL, GREAT AIN'T IT?! THIS IS A HANG GLIDER!

カ!!
アァ!!

HEH... I GUESS YOU'RE NOT REALLY FUSSED

I CAN FLY! I CAN FLY STRAIGHT THROUGH THE SKY!
I CAN FLY THROUGH THE SKY LIKE YOU!



NOW, TIME FOR A TEST!
I'M GOING TO FLY. I'M GOING TO FLYYY!
